[Statistic Templates](#)

[Competition setup overview](#)

[Creating a new Competition](#)

[Generating Fixtures](#)

Registrations & Products

- **Navigation:** Remember that you are accessing a hierarchy. Use the top left tab to remind you where you are
- **Navigation:** Different levels of the hierarchy will show you different things, i.e. Association Level is always where Competitions and Clubs exist
- Remember creating a product is the first step. They must be added to Registration Forms to be purchased!

Key things to think about with products (so I can apply the right settings):

- Do I want someone to be able to buy this one time only, or multiple times a season?
- Do I want this product to mark someone as Financial?
- Do I want to filter this products for certain people? i.e. Players, or Over-18s, etc?
- Is this product only available for a certain period of time?
- **Reporting:** Always remember you can save Reports to return to at a later date

Registrations & Products

- Creating a Product
- Allocating Products to Registration Forms
- Settlements and Reporting

Competitions

- Competitions can only be created at Association level
- **Always** remember to create your Competition within the current season – seasons are set by Basketball Ireland and will rollover every year
- **Competition Types:**
 - Home & Away – Standard Round-Robin (or league) format
 - Venue Allocation – Multiple fixtures at the same specific venue or pitch for the competition
 - Phases & Pools – Group (pools) phases followed by Finals stages
- Teams must be added to a Competition. They can be created within a Club or within the Association
- **Templates** can be found in your Association Settings. Look for the Settings Cog 
- You are able to create as many template for Fixtures, Statistics and Tables as you like but remember to name them accordingly
- Templates are selected for a Competition during the Competition Set-Up process

Competitions

- Team Management (at Clubs)
- Templates (Tables, Fixtures, Statistics)
- Generating Fixtures
