

Female Athlete Microcredential Application Form 2026

SHE Research and the Department of Sport and Health Sciences in TUS Athlone are delighted to run an online Level 6 Female Athlete Microcredential (5 credit module). There are no eligibility criteria for the module beyond having a keen interest in learning more about female athletes.

The aim of this microcredential is to provide students with an understanding of the key differences between males and females in the context of sport and exercise science and to identify unique, female specific considerations when working with, and supporting female athletes.

The charge for this module is 400 euro. Payment is available here: <https://bookings.tus.ie/events/microcredential-on-the-female-athlete-2026/> and must be completed before being registered to the module.

For this iteration of the module, we will cap the number of participants at 20 places but will be able to offer further opportunities to take part in future roll outs.

required

1. If you are a previous or current student of TUS Athlone, please share your student number?

2. What is your first name? *

3. What is your surname? *
