1.2 Rules and Regulations Overview

- (i) Rules will be reviewed at the end of each season based on the following:
 - The operations of the Schools Competitions throughout the season.
 - Proposals put forward by the Regional Organisers (ROs) and/or the PPSC.
 - Any suggestions for amendments by schools to the R&Rs must arrive with the PPSC, through the relevant RO, on or before May 1st of the current season.

- (i) A team must have 10 players to legally play a game. If they have less than 10 before the game starts they must forfeit and the score stands as 20-0 on the score sheet in favour of the team who has 10 players. The teams should then play a friendly game.
NOTE: This does not apply to regional finals, playoff tournaments and national finals at Minor and Junior levels games where schools involved must have the required number of players for games to proceed. Teams may not agree to amend this rule/result. Once the game starts if a team is reduced to less than 10 players the team must play with 4 or less in that quarter if no legal substitute is available.
- (ii) In the case of National Playoffs where time constraints exist, schools will be given reasonable notice of their fixture. It is expected that once a school qualifies from their region, they are ready to travel at short notice. Withdrawal from National Playoffs is considered a serious breach of the Basketball Ireland Post Primary School R&Rs and is subject to a fine of €1000. Rule 4.4 will apply.

- (iii) If a region has not produced qualifiers by the cut-off date on the Calendar the region will automatically lose their qualification places. A report will be commissioned by the PPSC NEC and any schools found to be responsible for preventing the completion of the Regional Competition by the deadline will be subject to a €1000 fine by the PPSC.

10. PPSC CLASSIFICATION PROCEDURE

10.1 Classification Procedure for all games

- (i) In all competitions including a round-robin system, teams will be classified according to their win-loss record, namely 3 classification points for each game won, 1 classification point for each game lost and 0 classification point for a game lost by forfeit (Note: There are no draws in basketball). A forfeit is classified as:
- *A team whose actions are adjudged by the PPSC or its representative such that prevented the game from being played.*
 - *It is the coach and school's responsibility to ensure that all players are eligible. A team who plays an ineligible player in any game will forfeit the game and receive 0 classification points with the winner receiving 3 classification points.*
 - *A team that does not turn up to play or refuses to play after being instructed to do so by the PPSC or its representative will forfeit the game(s) and receive 0 classification points with 3 classification points for the winning team.*
 - *If a team arrives at a venue and due to extenuating circumstances – accepted prior to the game by the PPSC – they do not have the required number of eligible players to play a competitive game the following will apply: They may proceed to play a non-competitive game. School Teams or their representatives, or tournament convenors do not have the authority to award games between each other in any circumstance without authorisation from the PPSC.*
- (ii) If in the regional leagues/playoff tournaments a team forfeits for the second time, that team shall be disqualified from the regional leagues/playoff tournament and the results of all games played by this team shall be nullified.
- (iii) Classification Procedure as follows:
- *In a scenario where two teams are tied:* If there are two teams tied in this classification the result of the match between the teams involved will be used to determine the placing.
 - *In a scenario where three or more teams are tied:* If three or more teams are tied on classification points the following criteria will be used to determine classification in this order.

1. The win-loss results of the game(s) between these three or more teams.
If this does not separate the teams then:
2. Higher game points difference of the games between them (i.e. points scored less points conceded in the games involving the teams' level on classification points).
If this does not separate the teams then:
3. Higher number of games points scored in the games between them (i.e. the number of points scored in the games involving the teams' level on classification points).

If teams get fully classified at any level the classification ends at that point however if at any level of these criteria above one or more team(s) is already classified while some others are not yet classified, then the procedure will be repeated from the beginning for all the remaining teams not yet classified.

If the teams cannot still be classified using the above criteria, then a draw will be used to determine classification. The scores in the games against a team or teams that are not level on classification points will never be used in PPSC Competitions. This is to ensure that weaker teams in competitions are protected.

11. COURT MARKINGS

10.1 Court Markings

- (i) For all Schools' Competitions the markings introduced in the FIBA Rules in 2010 are to be used.
